

THE HEAVY DUTY STARTING POWER OF CENTURION AKKU

CENTURION AKKU manufactures a full range of DIN type 12 Volt heavy duty and super heavy duty starter batteries, all conforming to European standard EN50342. Excellent all round batteries for trucks, busses, heavy machinery and agricultural equipment.

THE TECHNOLOGY

High strength 2,0 mm positive and 1,7 mm negative grids with radial ribs form the basis of the HD/SHD/+ battery design. Heavy inner cell connectors, oversized through the partition welds, and high density active material all contribute to the excellent vibration resistance and deep cycle capability. Combined with low resistance, puncture resistant PE (HD) or PE with glass mat (SHD) envelope separators, these characteristics result in ultimate starting performance even under the toughest conditions.

THE SPECIFICATIONS

ETN no	DIN no	HD/SHD	CCA EN (A)	capacity (Ah/20h)	layout	electrolyte content (l)	dry weight (kg)	dimensions (mm)			base hold down
								L	B	H	
600.026.060	60026	SHD	600	100	0	6,7	21,5	413	175	220
